Our management and staff team members have extensive experience in Cleaning Services,

Mixed Used Facilities, Commercial, retails and industrial cleaning services are delivered paying attention to those details that are often neglected. Our fast cleaning services are committed to environmentally sustainable practices.

PROFESSIONAL WINDOWS CLEANING:

Pure Water System is an advanced technology, which passes water through specialized filters with the result of removing mineral salts and solids, including calcium and chloride. This leaves only de-ionised 100% pure water that absorbs anything it comes into contact with, drying with no marks and no streaks!

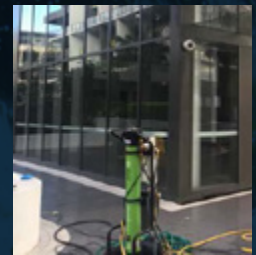

TRADITIONAL
WINDOWS CLEANING

LATEST
TECHNOLOGIES FOR
SAFETY AND PRICE
EFFICIENCY

We offer a high reach window cleaning service, which can clean windows up to 5 storeys high with ease. With our Pure H2O technology, which cleans windows without the use of chemicals or detergents, we ensure that no damage will be done to your property or to the environment

As well for we provided old traditional ways of a professional windows cleaning services, using the best equipment available in the market. And assuring our well trained team members reduce risks to a minimum possible, endeavouring no accidents in or out workplace.

PURE WATER SYSTEM

CARPET STEAM CLEANING

Nothing better than a refreshing carpet. Both our professional carpet cleaners and manufacturers agreed that hot water extraction is the very best method for removing dust and stains. Our experienced team will make your property shine with a **fast and professional technics** means your carpet will start to look and feel brand new again.

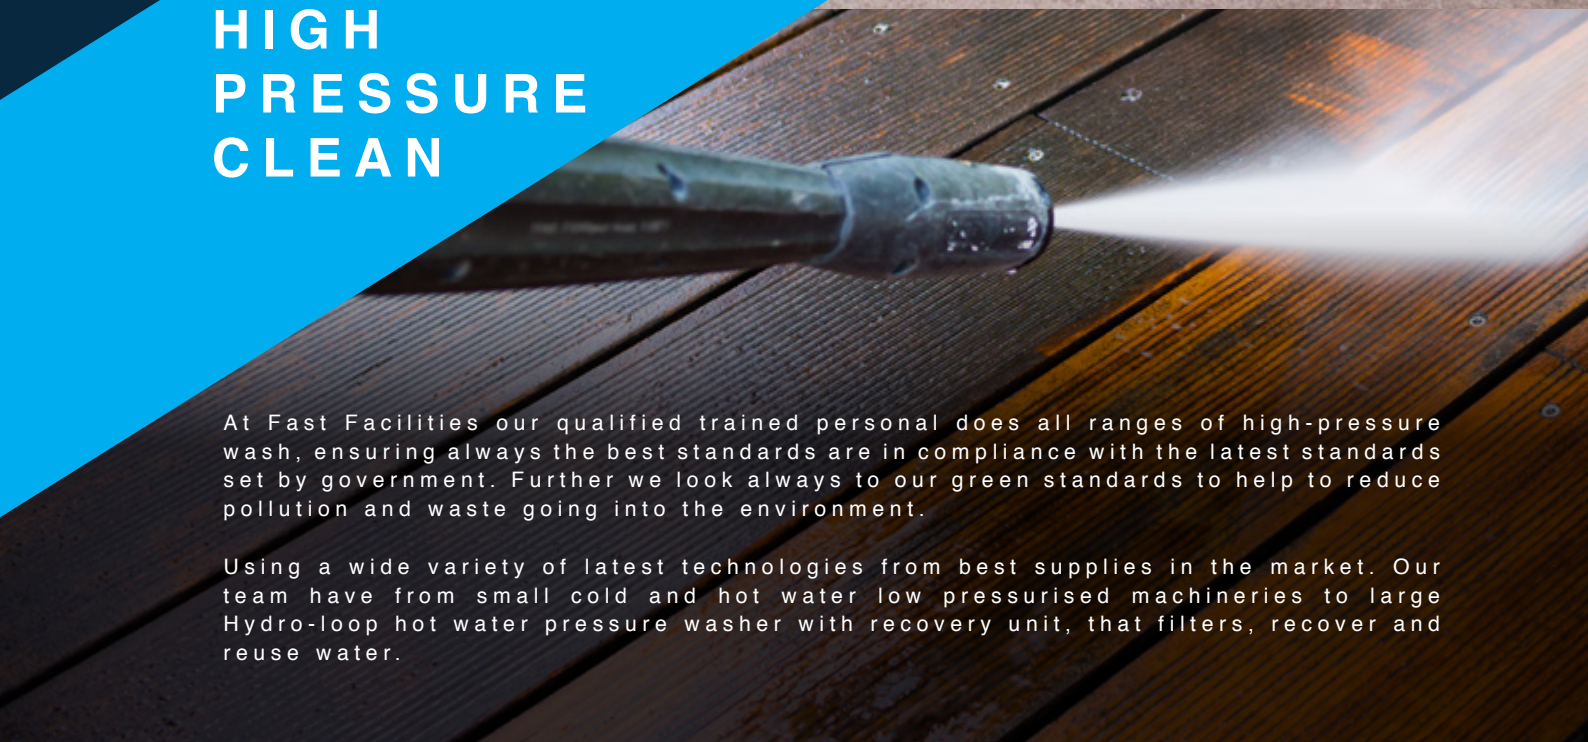

Only using top of range machineries the best the market can offer, we guarantee the very best method for your carpets. Count on us for your carpet long lasting life.

HIGH PRESSURE CLEAN

At Fast Facilities our qualified trained personal does all ranges of high-pressure wash, ensuring always the best standards are in compliance with the latest standards set by government. Further we look always to our green standards to help to reduce pollution and waste going into the environment.

Using a wide variety of latest technologies from best supplies in the market. Our team have from small cold and hot water low pressurised machineries to large Hydro-loop hot water pressure washer with recovery unit, that filters, recover and reuse water.

CAR PARK VACUUM, WASHING AND OIL STAIN REMOVAL

Maintenance is necessary and essential, a dirty car park can be unsightly and unsafe, but most important, it can be and will be a risk for users health.

Strata Managed residential or mix used facilities are required to be regularly maintained to keep property value and comply with insurances obligations.

FLOOR WASH, SCRUB AND POLISHING

We offer all types of floor treatment from tiles to marble from smallest to largest; Fast Facilities covers it all.

A daily maintenance is so essential for both safety slips as to a beautiful shiny appearance. Using Neutral chemical used to ensure well maintenance and PH neutralised technology. We train our staff to the highest standards to avoid over usage of chemical on the floor making it safe both when dry or wet.
